Bare Brews

THE MOBILE
NON ALCOHOLIC BEER
SOLUTION

EXPANDING OPPORTUNITY

Bare Brews presents an alchemist's dream: de-alcoholizing, pasteurization, alcohol water production, and deaeration brought to you! Craft breweries can now dive into this growing non alcoholic market sans Cap Ex, with proven technology, lightning-fast market entry, all at a price that won't give their accountants heart palpitations.

WHY RUIN PERFECTLY GOOD BEER?

Join the Boom: Tap into the \$36 Billion+ Non-Alcoholic Beer Market Expected by 2032 globally! Craft brewers, break free from capital barriers and brewing woes. With our gallon pricing, we'll swiftly launch you into the non-alcoholic beer scene while catering to your alcohol water needs that will cover your expenses!

OUR SERVICES

De Alcoholization

Bare Brews offers mobile de alcoholization services that utilizes the latest in separation technology combined with proprietary AI automation technology.

Alcohol Water

With our alcohol removal process, you'll no longer need to ferment your own alcohol water or buy it elsewhere for your brewery's needs. And guess what? It's included at no extra charge!

Pasteurization

Offering mobile flash pasteurization right in your facility for jobs big and small, without compromising your brew's flavor profile due to excess heat.

Deaeration

Our mobile equipment delivers filtered, deaerated water, ensuring you create the finest non-alcoholic beer imaginable.

Our automation tech can de-alcoholize over 2250 gallons of beer to below 0.5% ABV in just 24 hours. Plus, it produces crystal-clear alcohol water as a bonus byproduct, doubling your value. It's like getting two for the price of one while we cover the costs of alcohol removal!

If you've got questions, comments, or just want to chat about the wonderful world of sober sipping, hit us up. We're always down for a sobering conversation - or at least until happy hour rolls around! *Website and contact info on the flip side.*
